## SUPT. TIGHE IS AGAIN REELECTED

Makes Record in Educational Work in City During Three Years Here.

Supt. R. J. Tighe has been reelected superintendent of the El Paso schools for the next year. This was announced Monday by the school board.

Supt. Tighe came to the El Paso schools from Asheville, N. C., in 1913, having been recognized as one of the leading educators of the south at the time that he came to El Paso. During the three years that he has been at the head of the schools the average daily attendance has increased from 1000 to 3000, the high school enrollment has increased from 425 to 900, the school year

has been increased from 170 to 180 actual working days, and the daily session has been increased from 5-1-2 to 6 hours.

**Much Development.** Since Supt. Tighe took charge of the city schools property valued at several hundred thousand has been acquired for future school sites and a plan worked out for the enlargement of the school system to meet the future needs of the fast growing city. The salary schedule has also been revised with minimum and maximum salaries increased and the salaries paid in 12 instalments instead of nine.

**Courses Revised.** The elementary and high school courses of study have been completely revised during the three years that Supt. Tighe has been in charge of the schools. New methods of teaching have been instituted and the school equipment improved and increased to care for the rapidly growing schools. The modified Gary system has been instituted in the six elementary schools, the new system being instituted to take care of the crowded condition which made it impossible to care for the pupils under the old system. The records of the schools

have also been reorganized and a new method installed.

**Supervised Play.** One of the big things done by the school superintendent during his administration has been the development of an elaborate system of supervised play with a supervisor of recreation and a director of physical training in the schools. This director is appointed by the school board and is a part of the school training force. The medical inspection of pupils under the direct supervision of the board of health is another innovation which Supt. Tighe introduced in place of the old system of voluntary plan of medical inspection. A survey of educational activities is now in progress under the direction of the superintendent.

**\$500,000 High School.** The highest single piece of school development that has been undertaken during Supt. Tighe's administration is the erection of the new \$500,000 high school which will be the finest in the southwest and one of the finest in the country when completed. In connection with this he is making plans for a junior high school which will take the old high school building next year when the new building is completed.

**CAMPAIGN IS STARTED FOR KINGMAN FEDERAL BUILDING.** Kingman, Ariz., May 8.—The Kingman chamber of commerce has inaugurated a movement for the erection of a federal building to accommodate the rapidly increasing business of the booming mining camp.

**THE DAY IN CONGRESS.**  
Senate.  
Considered nomination of George Rublee to federal trade commission in executive session.  
House.  
Considered report of disagreement among army bill conferees over federal volunteer army and government nitrate plant.
